

Welcome to the JPIAMR Final Conference!

The Joint Programme Initiative on Antimicrobial Resistance is organising a conference in Stockholm, Sweden on 7-8 May 2025 to highlight the impact of 10 years of transnational AMR research funded by JPIAMR, as well as the upcoming milestone of transitioning to the European Partnership on One Health Antimicrobial Resistance (EUP OHAMR).

The conference aims to:

- highlight the impact of the portfolio of the funded JPIAMR projects and networks
- get insights from experts from different sectors (One Health, academia-industry-policy-society) to highlight the challenges and solutions to address AMR
- give an opportunity for the JPIAMR supported researchers to present their research results and engage with other researchers, policymakers and other relevant stakeholders across various sectors and disciplines
- address JPIAMR's continued engagement with the AMR community and its evolution into the EUP OHAMR
