

Draft program for the AMR Strategy Meeting on Research Network for sharing and re-using data, collections and bio-banks within the AMR domain.

October 28, World Trade Centre, Schiphol Airport, Amsterdam, The Netherlands

10.30            Opening, welcome by Herman Goossens, chair

Part One: FRAMING the event, the objectives of which are:

- to make visible that there are a lot of datacollections (of all sorts)
- but that sharing these data often isn't arranged properly

10.40            Flashpresentation by experts in the field, presentation of the surveys

Part Two: ISSUES

11.15            Flash presentations by experts in the field

11.45            First interactive session ISSUES the objective of which is:

- identifying the issues that come with sharing data/collections/samples etc.

12.45            Lunch

Part Three: SOLUTIONS

13.30            Flash presentation by experts in the field

14.00            Third interactive session HOW, the objectives of which are:

- finding out how the identified issues were handled by existing RI's
- translating those solutions to an AMR related advise to the MB

15.20            Plenary session, conclusions and an opportunity for participants to give suggestions to the secretariat on how to move forward.

Preview – next steps, closing

16.00            End of meeting
