

# GloPID-R Clinical Trial Networks Working Group

Dr Gail Carson, GloPID R Secretariat

# Who are we?

---

- ALERRT – African coalition for Epidemic Research, Response and Training
- APPRISE – Australian Partnership for Preparedness Research on Infectious Diseases Emergencies
- ISARIC – International Severe Acute Respiratory and emerging Infection Consortium
- PREPARE – Platform for European Preparedness for Re (emerging) Epidemics
- REACTing – Research and ACTION targeting emerging infectious disease
- REDe – Research Capacity Network (including ZIKAction, ZIKAlliance and ZikaPLAN)
- Another EDCTP2 African network will join

# What we aim to do?

---

- To exchange and share best practices and to identify synergies for future collaboration e.g. Zika Consortia
- Provides an opportunity to:
  - Learn from each other
  - Share tools and standards
  - Perhaps, running studies together in the future
  - Keen to focus in on – working closely with the GloPID R data sharing working group, addressing EARLS barriers and finding solutions, mental health, social sciences as they were identified as gaps and capacity building
  - Forum to discuss common challenges e.g. sustainability

# Series of webinars as a form of capacity building and sharing knowledge

Uncertainty about populations, interventions, comparators, effect size, and heterogeneity but it particularly affects trials that test the effectiveness of interventions during epidemics during fast-moving epidemics is the lead-time needed to commence them. In this sign as well as how such trials can deal with uncertainty and be implement-ready (but

About the speaker: Professor Steve Webb MBBS, MPH, PhD, FRACP

Peter Horby provides an insight into how capacity building is inherent in everything research networks, does. ISARIC's mission is to generate and disseminate clinical research networks, does. ISARIC's mission is to generate and disseminate clinical research networks, does. ISARIC's mission is to generate and disseminate clinical research networks, does.

Mapping ethical, administrative, regulatory and logistical (EARL) variant clinical studies in Europe

Anthropology and Ebola Research in the 2015 West African Epidemic

GLoPID-R is a network of research funding organizations in the area of

# PEARLS workshop June 2018

---

- CTN WG with partners will come together in June
- Hosted by the Wellcome Trust
- To discuss any solutions found or proposed to address shared PEARLS barriers to research
- Meeting report
- Complement the PREPARE workshop planned for September

# The network profiles can be found at
