

Spain

Spain is represented in the JPIAMR by the National Institute of Health Carlos III (Instituto de Salud Carlos III, ISCIII) and the State Research Agency (Agencia Estatal de Investigación, AEI). ISCIII is the main funding body for health research, especially for translational and clinical research. ISCIII research programmes include grants for projects, fellowships and post-doc contracts, grants for thematic research networks (based on public hospitals, public health institutions and public research institutions) and funding to Biomedical Research Networking Centers (CIBER). AEI is the main funding organization for basic and applied research in all disciplines including Biomedicine, Molecular Biology, Life Sciences, Biotechnology, and Agriculture.
